PROFESSIONAL EXPERIENCE

Massenergize | Wayland, USA (Remote)

May 2019 – Present

Senior Full Stack Engineer | React, Django, WordPress, AWS, Python, Redis

- Architected and maintained a community climate-action platform serving thousands of users; led a team of engineers through full product lifecycle from design to deployment.
- Designed PostgreSQL schema and optimized queries to support scalable community growth; built reusable UI components with Storybook, reducing dev time and improving design consistency across portals.
- Implemented Cypress E2E and Jest integration tests; set up CI/CD pipelines for automated testing and deployment, reducing release cycles. Partnered with designers in Figma and Adobe XD.
- Resolved critical CPU crisis (95% → 17%) on a 32-site WordPress Multisite on AWS Lightsail by identifying a plugin-level sleep loop bug and patching database transients.
- Designed a 10-jail Fail2ban security architecture and custom Apache hardening rules; developed wpguard, a Python CLI tool for real-time traffic analysis and automated ban management.
- Implemented Redis object caching and WP Super Cache network-wide; enabled PHP-FPM slow logging, optimized backup strategy, and rotated compromised DB credentials with zero downtime.

Pidaso.com | Accra, Ghana (Remote)

Jan 2024 – Dec 2025

Frontend Engineer / Full Stack Engineer | Next.js, NestJS, Tailwind, Zustand, TanStack Query, Firebase

- Translated complex Figma designs into production-ready web apps achieving Lighthouse score of 93, FCP 0.7s, and LCP 0.9s.
- Designed a scalable design token system enabling reusable, themeable components across multiple apps, reducing dev time by 40%.
- Leveraged Next.js SSR and integrated TanStack Query for caching/retries, delivering 30% faster perceived performance.
- Designed and built Testewb, an internal QA platform for organizing bug-bash sessions with a Next.js frontend, NestJS backend (JWT auth), and GitHub API integration for automatic ticket creation — piloted and immediately adopted organization-wide.

TECHNICAL SKILLS

Languages: TypeScript, Python, JavaScript, PHP, HTML, CSS

Frameworks: Next.js, NestJS, React, React Native, Django, Redux, Zustand, TanStack Query, WordPress

Infrastructure: AWS Lightsail, Redis, Apache, Fail2ban, PHP-FPM, WP Super Cache, GitHub Actions, CI/CD

Databases: PostgreSQL, MySQL, Firebase

Testing & Design: Cypress, Jest, Storybook, Figma, Adobe XD

EDUCATION

African Leadership University | Pamplemousses, Mauritius

Sept 2019 – 2023

BSc Computing (Glasgow Caledonian University) – First Class Honours
